Thomas E. Spencer, Ph.D.  
University of Missouri  
Columbia, Missouri, USA

Francesco J. DeMayo, Ph.D.  
Cary, North Carolina, USA

## Happy Holidays!

The festive season has snuck up on us yet again. As President of SSR, I am pleased to offer my best wishes for the holidays to all SSR members and supporters. I wish the best 2016 to all of you: may your research program thrive, may your experiments work, and may your best manuscripts be published in *Biology of Reproduction*.

This is the time of year for giving, and I entreat you to donate to the SSR Endowment. You can donate with a few clicks of your mouse at <https://www.ssr.org/Donations>, and then specify which component of the SSR you wish to support: the operation of the Society, the Legacy Fund for our Journal, one (or more) of the awards, travel for trainees, or specific aspects of the meeting program. A new fund has been developed this year to support symposia in ovarian research, launched by a generous donation from one of our most productive scientists, Dr. Bill Hansel. You can contribute to this or to other related initiatives.

Please have a look and give now to the Society that has given so much to us, the SSR.

Thank you for your generosity,

Bruce D. Murphy  
SSR President
